

Staging A Christmas Carol

Part 1: Designing the Scene

You will be assigned a scene by your teacher. For your scene, do the following.

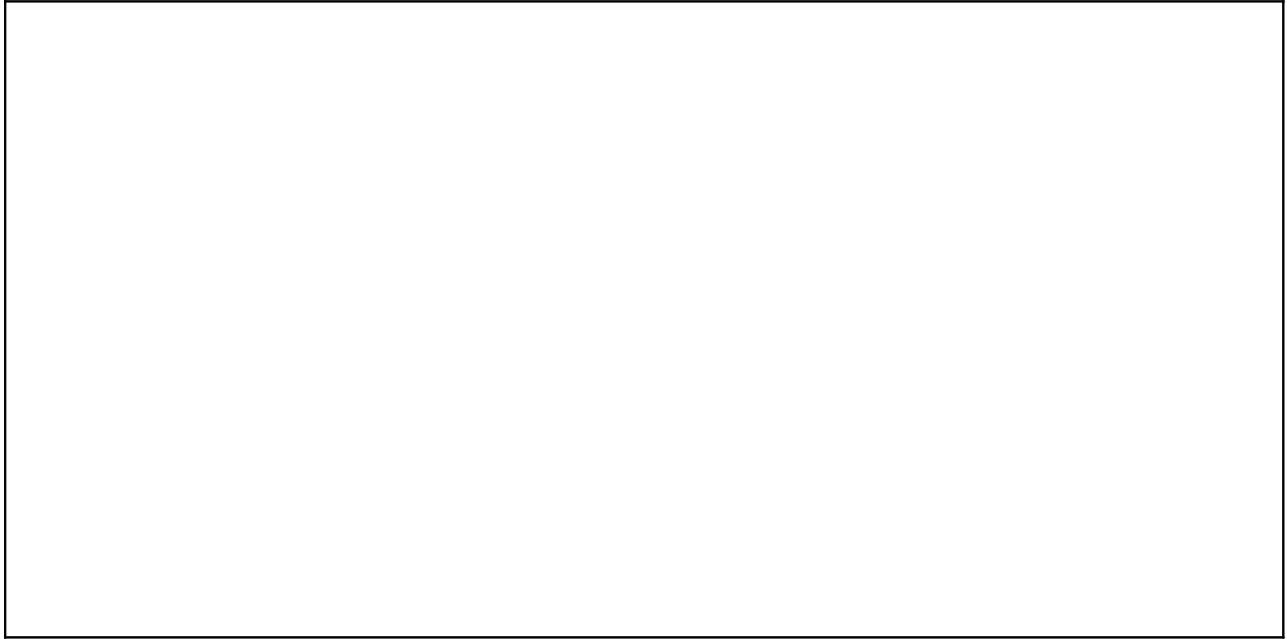

<p>Characters</p> <p><i>List the characters in your scene, and write a short description.</i></p>	
<p>Set</p> <p><i>Describe the scenery (background).</i></p> <p><i>Describe the furniture.</i></p>	
<p>Special Effects and Props</p> <p><i>What special effects will you need? How will you create them?</i></p> <p><i>What props will you need? (props are handled by the actors)</i></p>	

What will be the most challenging thing about staging your scene?

Part 2: Making the Scene Come to Life

Stage Plan

Use this diagram of the stage to plan where your set pieces will go and where your actors will stand.

Scenery Design

Use this space to design the scenery for your scene.

Costume Design

Choose 4 characters and draw their costumes. Use color!

Prop Design

Which prop is most important?

Draw your most important props here.

--	--

--	--

Lighting Design

When will you need darkness?

When will you need light?

Will you use special effects like fog and strobe lighting? For what?

What other special effects do you need?
