

OMM Projects

Read each of the following projects and select one to complete. Your group must agree on the project and every group member must participate in the process of creating the project and on the day of the presentation.

Favorite Scene

Pick your group's favorite scene in the book. Study the scene and prepare a skit to perform in front of the class. The skit must be at least 7-10 minutes. After you perform the skit you must explain to the class why your group picked the scene and how the scene adds to the overall understanding of the novel. Hand in your script and your reasoning behind choosing the scene and how it helps the reader better understand the novel.

Playbill

Design a playbill for a production of *Of Mice and Men*. The cover should be an exciting visual representation of the novel with title. The inside should include the cast of characters and the actors playing them. Also include the name of director for the production. All of your choices should be real people from worlds of entertainment, sports, politics, etc. On a separate sheet of paper explain both the concept of your design and why you picked specific actors to play specific parts. You must be prepared to explain your design and your choice of actors to the class when you present the project.

Birthday Party

Design a "theme" birthday party for Lennie (or another character from the novel). Decide on the theme, menu, and party games, all of which you will incorporate in a creatively designed invitation. Then on a separate sheet of paper, write the guest list and next to the name of each guest explain what gift the guest will bring and why it is being given. All choices must be explained during the presentation.

Scrapbook

Create a scrapbook that captures the friendship of Lennie and George. The book should include written notes and/or letters, pictures and specific items. The book should have at least 10 pages. You should be prepared to explain each page and the choice of items on each page.
